Daycamps

SUMMER DISCOVERY CAMPS 2009

PERMISSION SLIP

June 8-12 Oceanographer

Learn about our cool coast to the west and the creatures that live in the Pacific Ocean. We'll learn about the tide pools to the deep sea, and we'll try out some of the different methods used to study the ocean.

9 am-4 pm. DCI member: \$150; non-member: \$175

Grades 6-8

June 15-19 Invent It!

What is an invention? Learn about inventive thinking and invention-making. Master some important scientific principles, then use them as you challenge yourself to solve a perplexing problem in an unusual way.

9 am-4 pm. DCI member: \$150; non-member: \$175

Grades 5-6

June 22-26: Experiment & Engineer

Learn to do it yourself. Experiment with laws of physics and develop new skills. Engineer towers, bridges and domes. Make a propeller-driven car. Build and launch your own solid fuel rocket and hot air balloon. Invent something new.

9 am-4 pm. DCI member: \$150 + \$25 materials fee; non-member: \$175 + \$25 materials fee

Grades 4-6

June 29-July 3: Junior Scientists

Explore a multitude of sciences! Through fun, hands-on activities, learn about a wide range of topics including: space, chemistry, biology, making toys and building structures. Half-day sessions, morning or afternoon, all week long!

9 am-12 noon OR 1-4 pm. DCI members: \$75; non-members: \$85

Kindergarten

July 6-10 Toy Box

Make your own toy box. Then fill it with toys you create while learning the science behind how toys work. Make a kaleidoscope, sidewalk chalk, a balancing toy, a balloon car, a kite, a musical instrument, a space shuttle model that flies, and much more!

9 am-4 pm. DCI member: \$150 + \$25 materials fee; non-member: \$175 + \$25 materials fee

Grades 1-3

July 6-10 Wildlife Biology with Zoo Boise

Use the tools of biologists to study wildlife. Students will spend mornings at Zoo Boise and afternoons at DCI. Learn how satellites, radio telemetry and maps are used to track animals and to study the habitats animals need to survive. Explore how genetic tests help endangered animals. Examine wild animals' intriguing anatomy and much more.

9 am-4 pm. DCI member: \$150; non-member: \$175

Grades 4-6, Drop off at Zoo Boise; Pick up at DCI

July 13-17 Archaeology & Paleontology

Take a step back in time as you learn about dinosaurs, mammoths and some of our earliest ancestors. Explore fossils, primitive tools, cave paintings and ancient pottery, and possibly what dinosaurs really looked like! Plenty of hands on experiments will help you answer some questions about life long ago.

9 am-4 pm. DCI member: \$150; non-member: \$175

Grades 2-4

July 20-24 DNA & Forensics

Learn how crime scene investigators like the ones on CSI solve crimes using DNA, the hereditary material in humans and just about every other organism. Analyze fibers, bones, handwriting and DNA. Lift fingerprints, find traces of blood and saliva, perform chemical tests and look for microbes under a microscope. Then use your new investigation techniques to solve the case!

9 am-4 pm. DCI member: \$150; non-member: \$175

Grades 4-6

July 20-24 Explore, Experiment & Build

In partnership with Boise Parks and Recreation, off-site at Collister Elementary School, 4426 Catalpa in Boise. Join us for a half-day multi-science camp full of hands-on activities. Explore exciting topics such as astronomy, geology, weather, electricity, chemistry and flight.

9:00-12:00 \$75.00

Drop off and Pick up at Collister. No Transportation from the Discovery Center

Grades 1-3

July 27-31 Robotics I

Experiment with rovers and electronics while learning how robots work and where they are used in the modern world. Then build your own robot to take home.

9 am-4 pm. DCI member: \$150 + \$25 materials fee; non-members: \$175 + \$25 materials fee

Grades 1-3

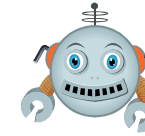

August 3-7 Experiment, Build & Create

In partnership with Boise Parks & Recreation, offsite at Horizon Elementary School, 730 N. Mitchell in Boise. Join us for a half-day multi-science camp full of hands-on activities. Explore exciting topics such as forensics, chemistry, genetics, structural engineering, simple machines, animation and optical illusions.

Half-day sessions, 9 a.m.-12 noon -- \$75

Drop off & pick up at Horizon. No transport provided from the Discovery Center

Grades 1-3

August 3-7 Space

Be an astronaut. Design rockets, explore the secrets of the planets, stars, comets and living in outer space. Find out what a shooting star really is and hold one in your hand. Enter our exciting STARLAB and watch the night sky appear above you.

9 am-4 pm DCI member: \$150; non-member: \$175

Grades 1-2

August 10-14 Robotics II

Delve more fully into robots and programming and how robots are used in the modern world as you solve special robotic challenges.

9 am-4 pm DCI member: \$150 + \$25 materials fee; non-member: \$175 + \$25 materials fee

Grades 4-6

August 17-21 Aviation & Weather

Learn about the science of flight and weather as you explore the atmosphere – Learn how airplanes are able to climb into the sky and the dynamics of severe weather including tornadoes! This class will explore the topics of storms, radar, icing and turbulence, and what these hazards mean to pilots and passengers.

9 am-4 pm : DCI member: \$150; non-member: \$175

Grades 5-6

Classes are held at the Discovery Center unless otherwise noted. Students must have already completed the grade indicated for each class. Your child can be picked up as late as 5:30 p.m. if arranged in advance, for an additional \$50 a week or \$12 a day.

Use a separate form for each child

I give permission for:

To participate in all class activities at DCI and Julia Davis Park. I hereby give consent to treat my child in case of medical emergency. I understand that all efforts will be made to contact me immediately.

In case of emergency, at which phone numbers can we reach you during the hours your child will be in class?

If we are unable to reach you, whom should we contact?
